## OBSAH

By completing the training, you will meet one of the specific requirements of the OEM as well as the IATF 16949 requirements. The aim of the training is to explain to participants the identification, recognition and management of risk. After completing the training, the participant will be able to competently identify risks, recognize, minimize and manage them in product development projects and the production process. The participant will receive a certificate of completion after successfully passing the knowledge n test.
